

MAIL: SYMBOL OF TRUST TOOL OF TERROR

2018 = A HIGH WATER MARK IN MAIL THREATS

COPYCAT THREATS = INCREASED TARGETING

34% of companies say they received threats in the mail this year (up almost 10% from last year)

MOST ORGANIZATIONS DO NOT TAKE ADEQUATE PRECAUTIONS TO BLOCK MAIL THREATS

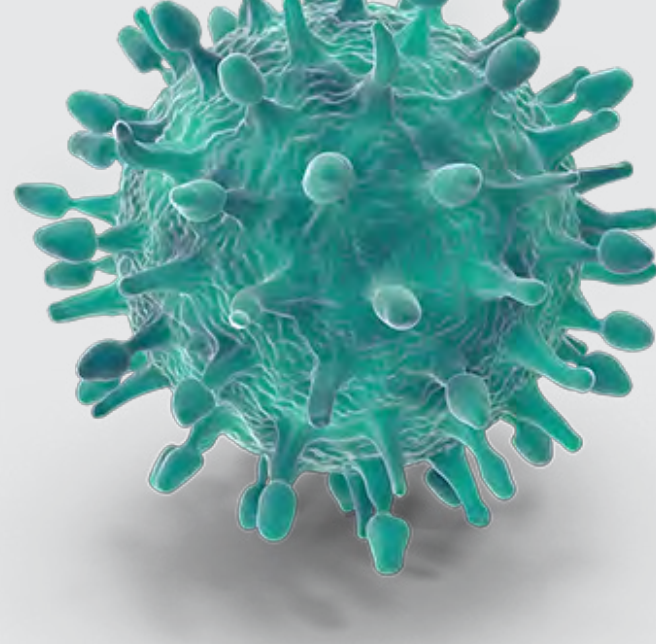

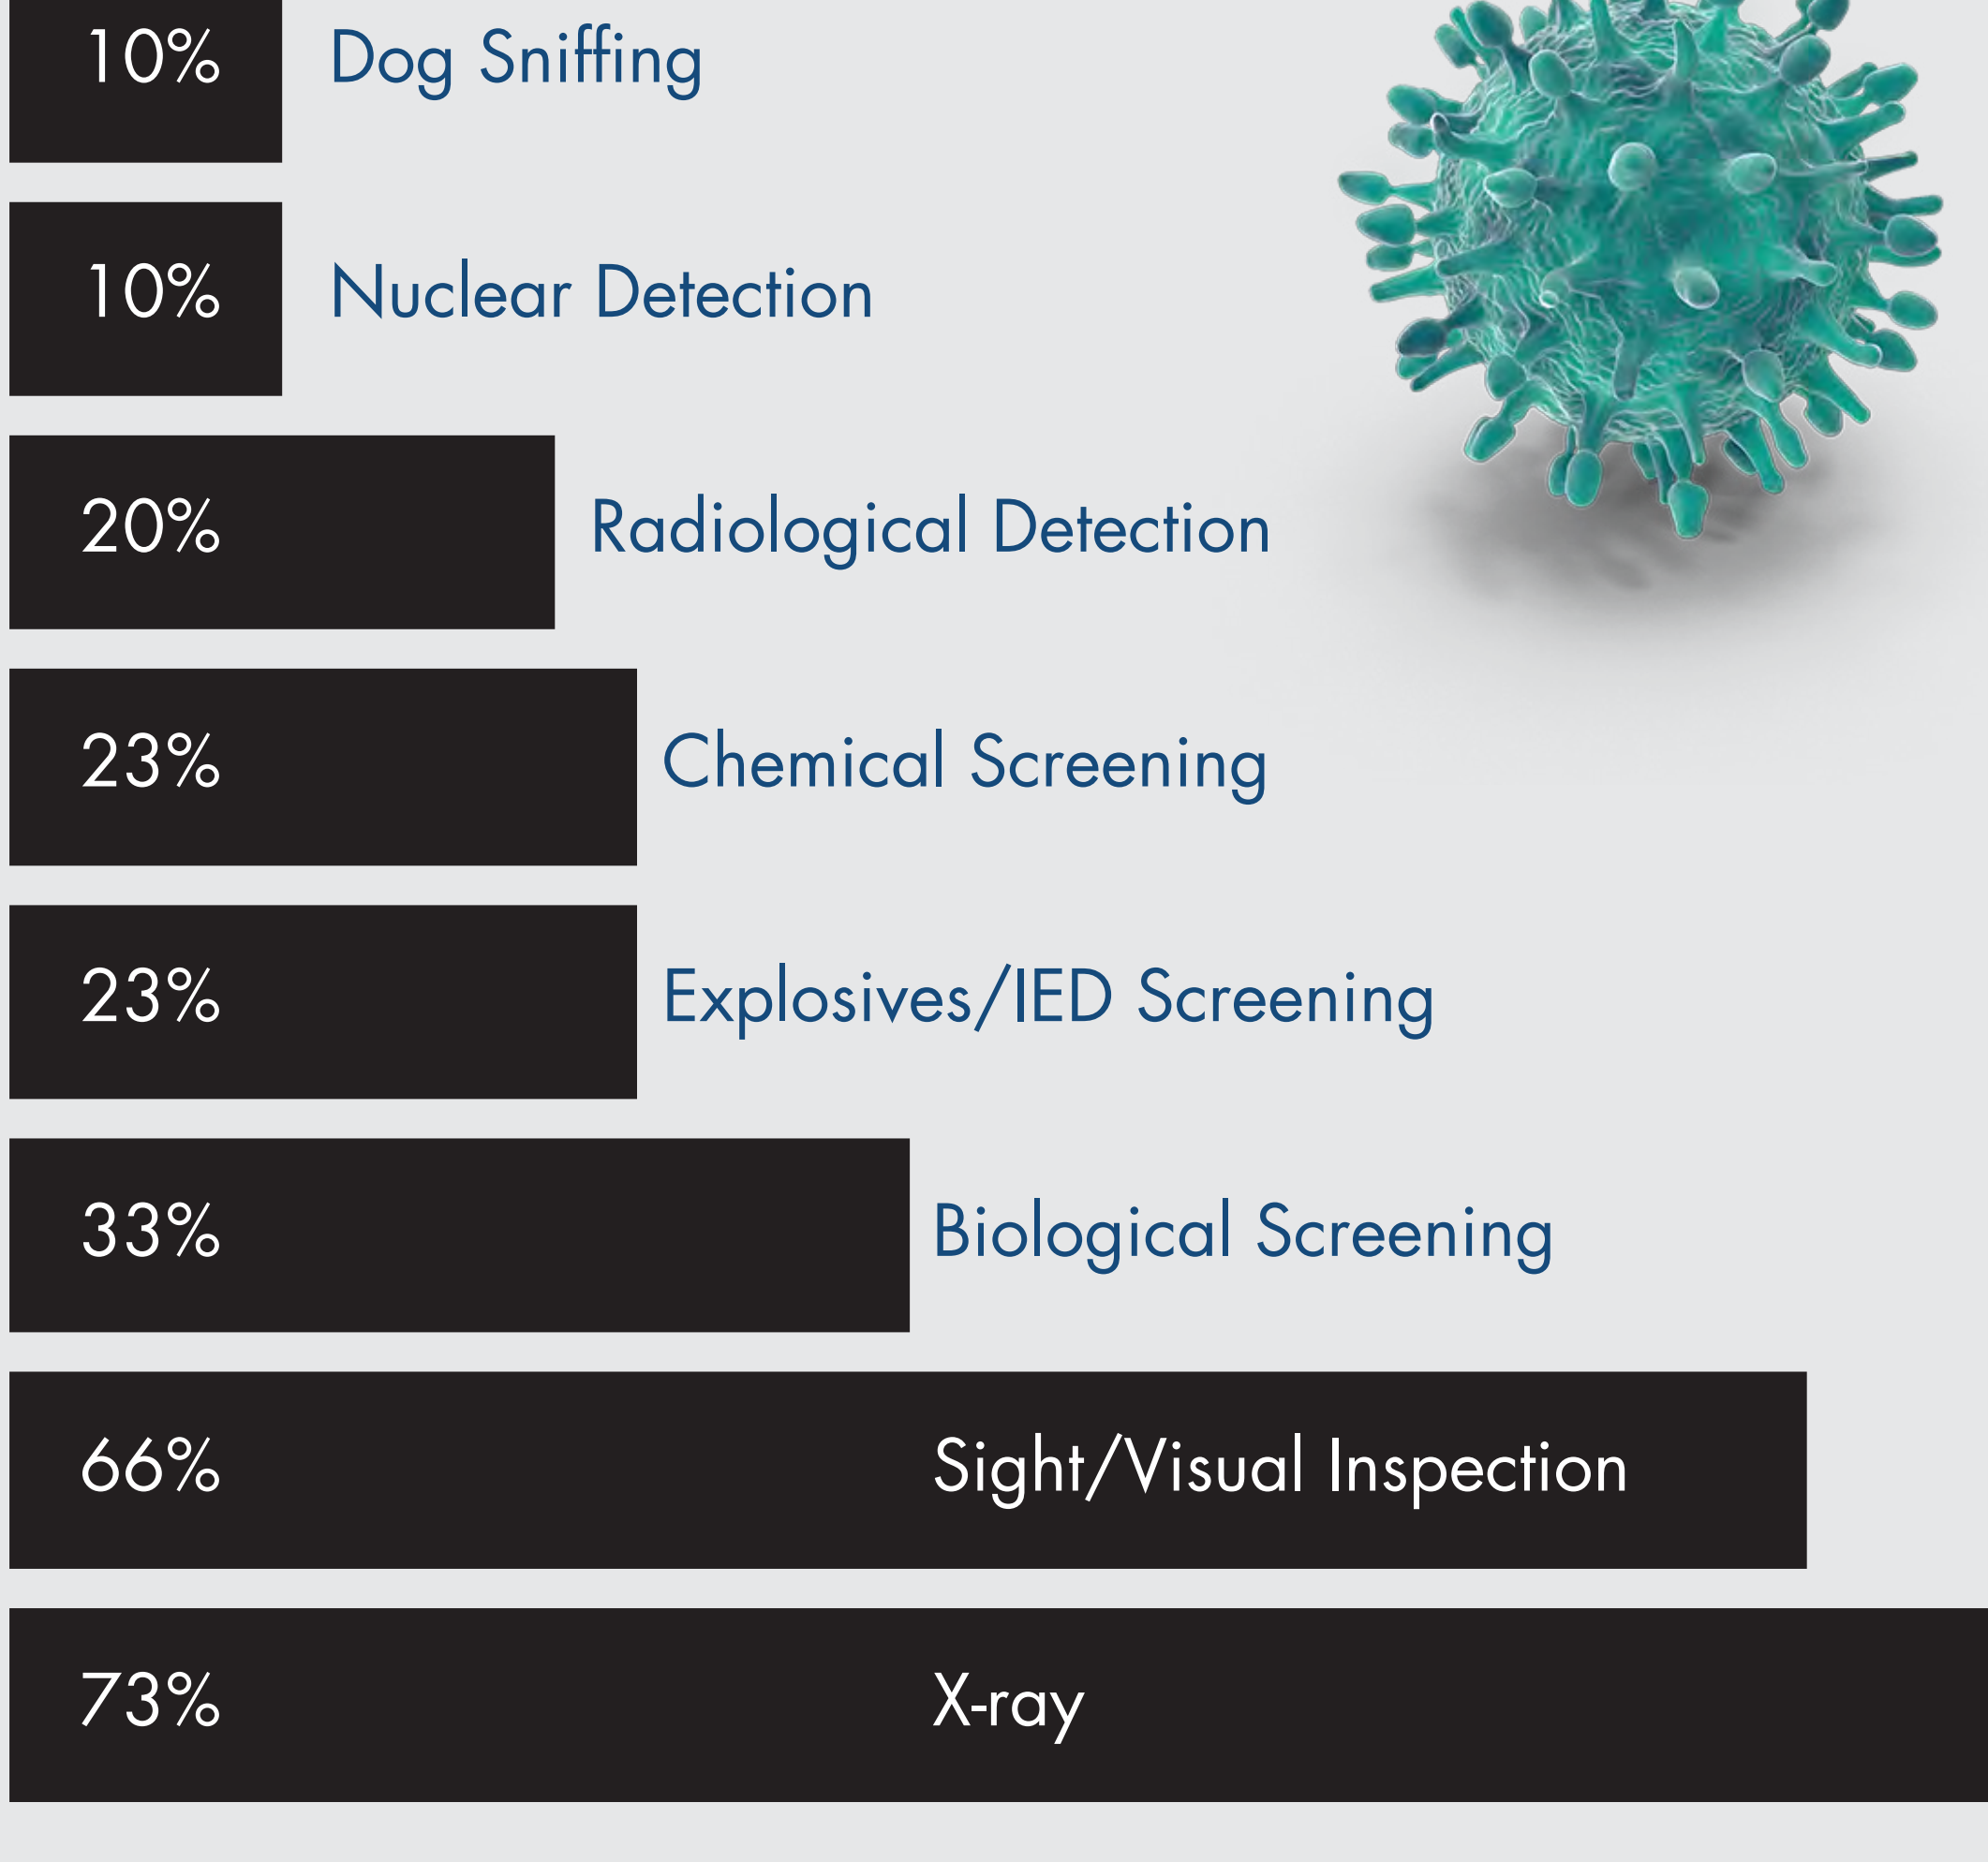

Half of companies surveyed still do not screen incoming mail at all.

50%

THE BEST DEFENSE IS A GOOD OFFENSE

Recognizing the increased need for enhanced screening techniques. *Screening for biologicals has doubled this year.*

THE GOOD NEWS?

Offsite mail screening has risen almost 20% mitigating the risk of exposing employees and critical facility assets to harm.
